

Revolutionising water production and filtering with Becker & Wolf water creation machines.

Say goodbye to plastic bottles and start producing your own water with a Becker & Wolf water creation machine.

In 2021, over 2 billion people live in water-stressed countries, which is expected to be exacerbated in some regions as result of climate change and population growth. In 2022, globally, at least 1.7 billion people use a drinking water source contaminated with faeces.

Use either grid power or connect to solar panels / wind turbines to create the most efficient water generating solution for you.

We are resolute in our dedication to transform the water infrastructure market and leave behind a healthier planet for future generations.
